## OBJECTIVE

As a self-taught Flutter developer, I am committed to creating mobile applications that deliver exceptional user experiences. Proficient in the Dart programming language, I have acquired expertise in various areas, including Provider state management, integrating REST APIs, and leveraging Firebase functionalities. My experience also encompasses developing applications using the Flutter framework. I take pride in delivering high-quality, efficient code, fostering collaboration, and excelling in both independent and team-oriented work environments

---

## SKILLS

Technical Skills : Flutter, Dart, REST Api's, Firebase, Provider, Hive, Figma, HTML, CSS, JavaScript

Soft Skills : Communication, Collaboration, Critical thinking, Problem solving.

---

## EXPERIENCE

Flutter Developer

Bridgeon Solution L.L.P

July 2023 – Ongoing , Kinfra Park,Calicut,Kerala

- Developed Flutter apps with specific functionalities and deployed them.
- Resolved bugs in Flutter apps, enhancing stability.
- Acquired knowledge of new technologies and tools during the internship.
- Designed intuitive UI/UX for Flutter apps, prioritising seamless user experience.
- Integrated Flutter apps with APIs to fetch and display dynamic data.
- Implemented scalable state management using Provider.

Business Development Executive

Rings Promose PVT.LTD

October-2022 – April-2023, Calicut,Kerala

- Devised strategies for sales opportunities.
  - Ensured client satisfaction through personalised assistance .
  - Negotiate with clients for business deals.
- 

## EDUCATION

Bachelor of Commerce - Finance

University of Calicut

2018 – 2021

## PROJECTS

### **Chitchat** - [github](#):

Chitchat is a comprehensive social app that offers Google, email/password, phone, and Facebook authentication. Users can seamlessly exchange video, audio, texts, images, and documents. Key features include unread message alerts, friend requests, and a search function. Additionally, users can post status updates. Firebase serves as the backend, ensuring a reliable and efficient platform.

### **Todo App** - [Playstore](#), [Github](#), [Linkedin](#)

Todo App simplifies task management with Flutter, utilising Hive for local storage. Its intuitive interface allows easy task creation, deletion, and updates. Whether organising chores or planning projects, Todo App ensures efficient task management. Stay productive and organised effortlessly with Todo App, now available on the Play Store

### **Shopsphere** - [Github](#), [Linkedin](#)

ShopSphere is a robust e-commerce app built with Flutter and Firebase. It offers secure authentication options including phone, email/password, and Google sign-in. Users enjoy intuitive product categorization and a user friendly 'Add to Cart' feature for seamless shopping. This project showcases mastery in mobile app development for an enhanced user experience.

### **Movie Stack** - [Github](#), [Linkedin](#)

The Movie Stack is a minimalist movie companion app designed to offer a user-friendly experience for exploring films and actor profiles. Utilising Dio web service integration, it seamlessly retrieves data from TMDb, providing detailed information about movies and actors. The app prioritises streamlined movie discovery, featuring a search functionality for effortless navigation and exploration of the extensive movie database.

### **News App** - [Github](#), [Linkedin](#)

News App using Flutter, integrating the http library to make web service requests and retrieve data from RESTful APIs. The app delivers a user-friendly experience for staying updated on the latest news and articles from various sources.

### **Weather info** - [Github](#), [Linkedin](#)

The weather app uses the OpenWeather API to give you real-time weather updates and accurate forecasts. You can check current conditions, hourly and daily forecasts, and get weather info based on your location. It's easy to use with a simple interface.

### **Expense Tracker** - [Playstore](#), [Github](#)

A user-friendly expense tracker app with Hive database for efficient management. Includes edit, delete, and update features, categorising expenses for comprehensive financial tracking and budgeting insights.

## ACHIEVEMENTS

- Developed and deployed Flutter apps with specific functionalities.
- Mastered Flutter and Dart independently, showcasing self-motivation and tech adaptability.
- Independently troubleshooted and fixed technical issues, highlighting attention to detail
